STATEMENT OF RESPONSIBILITY

The Annual Statements of Public Accounts have been prepared by the Accountant General in accordance with the provisions of the Public Financial Management (PFM) Ordinance (Ordinance 6 of 2012), 19th March 2012.

The Turks and Caicos Islands (TCI) has returned to an elected Government in November 2012, following three years of a UK led Interim Administration under the TCI Constitution Interim (Amendment) Order 2009, which assigned the powers and duties of the Minister of Finance to the Governor. The Minister of Finance under the PFM Ordinance 2012 is responsible for the management of public moneys and the debts and other liabilities of the Government, ensuring that they are regulated, controlled and supervised in accordance with the law. In that regard, the Minister of Finance may make regulations, give instructions and issue such directives for the better carrying out of the intent and purposes of the House of Assembly, and for the safety, economy and advantage of the public revenue and public property.

The Permanent Secretary, Finance provides support to the Minister of Finance in carrying out his or her duties under the law and he or she is responsible for the effective application of the PFM Ordinance and any regulations made or any instructions given or any directives issued under that Ordinance.

The Accountant General is responsible for the compilation and management of the accounts of the Government, and for the custody and safety of public moneys and other resources of the Government. He or she is responsible for establishing and maintaining a system of internal control designed to provide reasonable assurance that the transactions recorded are within the authority, and properly record the use of all public funds by the Government of the Turks and Caicos Islands (TCIG).

In preparing these Annual Statements of Public Accounts, the most appropriate accounting policies have been consistently applied and supported by reasonable and prudent judgments and estimates. To the best of my knowledge, the Report and Annual Statements of Public Accounts give a true and fair view of the state of affairs of the Government of the Turks and Caicos Islands as at 31st March 2013 and of the Surplus for the financial year ended 31st March 2013.

MANAGEMENT REPRESENTATION LETTER

Auditor General National
Audit Office South Base
Grand Turk Turks & Caicos
Islands

We are providing this letter in connection with your audit of the financial statements of the Turks & Caicos Islands Government (TCIG) for the period ended 31st March, 2013 for the purpose of expressing an opinion as to whether the financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows in conformity with the modified cash basis of accounting. We confirm that we are responsible for the fair presentation in the financial statements of financial position, results of operations, and cash flows in conformity with the modified cash basis of accounting.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, as of March 6, 2014 the following representations made to you during your audit;

1. The financial statements referred to above are fairly presented in conformity with the modified cash basis of accounting,
2. We have made available to you all financial records and related data except for those not received or where no documentation available,
3. There have been no communications from regulatory agencies concerning non-compliance with or deficiencies in financial reporting practices,
4. There are no material transactions that have not been properly recorded in the accounting records underlying the financial statements,
5. We believe that the effects of the uncorrected financial statement misstatements summarized in the accompanying schedule are immaterial both individually and in the aggregate, to the financial statements taken as a whole except for those specifically identified by the National Audit Office,
6. We acknowledge our responsibility for the design and implementation of programs and controls to prevent and detect fraud,
7. We have no knowledge of any fraud or suspected fraud affecting the entity involving:
 - Management,
 - Employees who have significant roles in internal control, or
 - Others where the fraud could have a material effect on the financial statements.
8. We have no knowledge of any allegations of fraud or suspected fraud affecting the entity received in communications from employees (current and former) or any other individuals,
9. There are no plans or intentions that may materially affect the carrying value or classification of any assets and liabilities.
10. The transactions, material issues known to management and other significant estimates during 1st April 2012 – 31st March, 2013 have been properly recorded or disclosed in the financial statements.
11. There are no known violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements except for those identified by the National Audit Office and,
12. There has been compliance with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance, except for those identified by the National Audit Office.

To the best of our knowledge and belief, no events have occurred subsequent to the balance-sheet date and through the date of this letter that would require adjustment to or disclosure in the aforementioned financial statements.

While the CFO Ordinance gives the CFO overall financial responsibility for ensuring prudent financial spending as noted the PFM Regulation, Schedule B, it was felt that the CFO has no legal responsibility for the preparation and presentation of TCIG's financial statements, therefore the current CFO is not one of the signatories to this letter.

REPORT OF THE ACCOUNTANT GENERAL

Introduction

The Annual Statement of Public Accounts of the Government of the Turks and Caicos Islands for the financial year ended March 31st 2013 has been prepared in accordance with the Public Finance Management Ordinance 2012 (Section 44.01).

The Annual Statements of Public Accounts have been prepared using the modified cash basis of accounting. These statements provide useful information that can be used in assessing the financial activities of the Government during the year and its financial position. It is intended to meet the needs of stakeholders including, taxpayers, members of the legislature, investors and creditors, and the public at large.

During the previous year, the Government began a major reform program to stabilize its finances and as a result we saw the introduction of numerous measures and policies, aimed at creating stable revenue streams, reviewing all government expenditure and borrowing to meet its future commitments, and in an effort to return to fiscal stability. In-light of the new-found fiscal responsibility, the financial outlook in the long-run shows strong positioning. At the end FY2012-13 the Government is able to report a surplus of US \$56.4 million for the period, coming from a US \$32.9 million deficit in FY2011-12. This results in US \$89.3 million or nearly three-fold improvement.

During the year the Treasury Department also continued to institute reforms in the Government's financial reporting systems so as to improve their quality and reliability as well as to increase the relevance of the presented information. The Treasury reforms aim to provide the general public, decision makers, and other users of the financial statements with reliable and comprehensive information as regards the financial position of the Government of the Turks and Caicos Islands, in the belief that transparency is one of the cornerstones of a proper and efficient administration. The financial statements serve as a basis for the long-term improvement of various significant processes with informed decision making.

Public Financial Management (PFM) Reforms

Under the Interim Administration, the sound management of public finances was considered essential and of top priority, for which the Turks and Caicos Islands Government (TCIG) embarked on an intensive programme of Public Financial Management (PFM) and other administrative reforms. The reform measures were embarked on with the support of technical assistance provided by UK sponsored advisers working closely with local staff. The PFM reform measures include the following:

- 1) Preparation of a new constitution that will better ensure the maintenance of fiscal discipline and transparency;
- 2) Enactment of a new Public Finance Management (PFM) Ordinance 2012 and its underlying Regulations, which replaced the Finance and Audit Ordinance of 2009;
- 3) Enactment of a Public Procurement Ordinance 2012;
- 4) Enactment of a National Audit Ordinance 2012;
- 5) Implementation of a Treasury Restructuring Programme;
- 6) Completion of Annual Public Accounts for Four Outstanding Years (FY2007/8, FY2008/9, FY2009/10 & FY2010/11), which have since being audited bringing the Accounts of the Government up to date;
- 7) Introduction of new banking arrangement with Scotia Bank aimed at enhancing electronic banking services (for faster payments and revenue collections) as well as ATM services;
- 8) Introduction of measures to bring public expenditure under better control, and into line with prospectively available resources;
- 9) Introduction of measures to increase revenues by reviewing the rates of existing taxes and charges, introducing new taxes, and improving the collection and enforcement arrangements; and
- 10) Introduction of measures to enhance cash and debt management, accounts maintenance and reconciliation, and financial reporting.

Furthermore, the Turks and Caicos Investment Agency (dissolution) ordinance of 2012 was enacted in 2012 to provide for the dissolution of TCInvest, moving all of its assets & liabilities into the books of accounts of the Turks and Caicos Islands Government.

The FY2012-13 Budget

At the onset of the fiscal period FY2012/13, an Appropriation (2012-13) Ordinance 2012 (Ordinance 16 of 2012) was passed, which appropriated a total of US \$ 196,280,627 comprising Consolidated Fund – Recurrent Expenditure Budget US \$180,048,014 and the Development Fund – Capital Expenditure US \$16,232,613.

During the financial year, there were two supplementary budget appropriation – Supplementary Appropriation (2012/2013) Ordinance 2013 (Ordinance 1 of 2013) for US \$4,630,564.30 for TCIG Capital Projects, and Supplementary Appropriation (2012/2013) Ordinance 2013 (Ordinance 4 of 2013) for US \$2,879,775.55 for the purchase of the NJS Francis Building (US \$2,685,409.76), Human Rights Commission (US \$27,365.79), Integrity Commission (US \$100,000) and for Reversed Osmosis Pumps (US \$67,000).

FY2012-13 Actual Results vs. Budgetary Targets

Revenue

Total Revenues collected by the Government amounted to US \$240.2 million, of which 75% (US \$180.3 million) are from recurrent sources, as illustrated in the chart below.

The major sources of Government's recurrent revenues are from duties & taxes, which jointly accounted for 75% (US \$135.7 million) of the total recurrent revenues for the year. Of the total amount of US \$135.7 million collected for duties and taxes, 25% (US \$34 million) is attributed to Accommodation tax and 36% (US \$48.6 million) to Import Duties. Further Details of Collections are analyzed in the Chart and Table below.

Analysis of Recurrent Revenues

Recurrent Revenue	FY2012-13	FY2012-13	FY2011-12	FY2012-13 Actual Vs		Actual FY2012-13 vs

Other Revenues	12,481,680	14,000,905	5,739,729	1,519,225	12.2%	8,261,176	144%
Total Recurrent Revenues	191,577,632	180,292,851	164,605,264	(11,284,781)	-5.9%	15,687,587	10%

Total recurrent revenues of US \$180.3 million fell short of the revenue target of US \$191.6 million by 5.9% or US \$11.3 million, with more than half of the shortfall arising from non-customs duty related taxes. When compared to the results of last year there was a significant increase in revenue collections by 10% or US \$15.7 million. Import Duties and Accommodation tax, the largest contributors to recurrent revenues, jointly accounted for 46% of total recurrent revenues, but they were both below their budgeted amounts.

Import duties, the country's largest revenue source, totaled US \$48.6 million for the year but was US \$3.1 million or 6.0% below the revenue target of US \$51.7 million. The shortfall of US \$3.1 million may be as a result of the business community preparing for the anticipated implementation of VAT in April 2013. An analysis provided by the Customs Department shows that Stakeholders reduced their stock for the period leading up to April 1, 2013 (the then proposed implementation date) in order to mitigate against the possibility of double taxation.

Accommodation Tax, being the second largest Revenue Item, also fell short by US \$2.9 million or 7.8% of the revenue target of US\$36.9 million. This shortfall may be attributed to the Noro-Virus outbreak earlier in the financial year which closed some hotels for a short period and Tropical Storm Sandy that significantly affected the Island's tourist market. In order to increase our tourist numbers, the Tourist Board has embarked on new marketing measures, particularly in attracting the European and Asian markets.

The Analysis of the Non-Recurrent Revenues is presented below:

Non-Recurrent Revenues	FY2012-13 Estimates	FY2012-13 Actual	FY2011-12 Actual	FY2012-13 Actual Vs Estimates		Actual FY2012-13 vs FY2011-12

Amounts totaling US \$5.1 million or Euro3.88 million were received from the European Union as budgetary support. Furthermore, amounts totaling US \$6.0 million were received from the UK Foreign & Commonwealth Office (FCO) as budgetary support.

Expenditure

Total expenditure for the year was US \$184.0 million, representing a shortfall of US \$19.8 million or 9.7% when compared to the approved budget of US \$203.8 million, including

supplementary provisions. The total expenditure of US \$184.0 million was about 8.7% or US \$17.5 million lower than that for the previous year.

Non Interest Recurrent Expenditure of US \$146.6 million (including Subventions to Statutory Bodies of US \$6.4 million) accounted for 80% of Total expenditure and the details of the payments are analyzed in the table below.

The Table above depicts non interest recurrent expenditure recorded a US \$7.8 million or 5% performance below the budgeted amount of US \$154.3 million and was US \$16.5 million or 10% less than the previous year's results. Personal emoluments, a major expenditure item of the Government, was nearly one third (31%) of total expenditure and 39% of recurrent expenditure, and these amounted to \$57.3 million for the financial year as against the budgeted amount of \$57.6 million, a slight out-performance of 1%. Hospital provisional Charges and transfers to National Health Insurance Board are Government's second and third largest expenditure items with each accounting for 17% and 12% respectively of total recurrent expenditure.

Capital Expenditure for the year totaled US \$15.2 million, which was US \$8.4 million (36%) below the budgeted amount of US \$23.5 million, including supplementary appropriation. This amount includes US

\$2.7 million for the purchase of the NJS Francis Building and US \$4.4 million for land acquisition at the Providenciales International Airport. Compared to the results of the previous year, there was a US \$9.5 million (170%) increase in the amount spent on capital projects.

Government’s Interest payments on debts during the year totaled US \$7.5 million and were 3% less than the budgeted total of US \$7.7 million. Interest payments were 4% of the total recurrent revenue, as depicted in the chart below

Debt Servicing - Interests as a % of Total Recurrent Revenues

Surplus or Deficit

The FY2012/13 Annual Public Accounts present a situation of fiscal surplus amounting to US \$56.3 million (Deficit US \$32.9 million – FY2011/12). The fiscal surplus ended a string of deficits over the years and enabled the Government to transfer US 41 million to the Sinking Fund to meet future loan commitments.

Public Debts

The Government of the Turks and Caicos Islands borrows both on the local and International Markets. Government debts stood at US \$215.0 million as at 31st March 2013 – the total debts increased by US \$12.8 million on 30th September 2012 as a result of Turks and Caicos Islands Investment Agency (TCInvest) loans brought into the books of the Government following its dissolution on that date.

The total debt of US \$215.0 million at 31st March 2013 includes an amount of \$170 million for Bonds issued under the guarantee arrangement with the UK Government. These bonds were issued in April 2011 to be repaid in February 2016. Debt servicing during the year totaled approximately US \$19.9 million, which consisted of US \$12.4 million in principal repayments and US \$7.5 million in interest payments.

Total Outstanding Debts at the end of March 2013 comprise:

OUTSTANDING PUBLIC DEBTS - 31ST MARCH 2013	
	US \$
Caribbean Development Bank Loans	11,258,751
Citibank Commercial Loans	3,958,333
Royal Bank of Trinidad & Tobago ('RBTT')	
Commercial Loans	8,027,778
Turks & Caicos Bank Limited Loans	8,741,667
Scotia Bank Loan	9,000,000
HSBC Bonds	170,000,000
European Investment Bank (EIB) Loans	1,322,764
National Insurance Board (NIB) Loans	2,724,142
TOTAL PUBLIC DEBT	215,033,434

TCInvest

The Turks and Caicos Islands Investment Agency (commonly called TCInvest) was dissolved on 30th September 2012, with all its assets and liabilities becoming vested directly on the Government. As a result, Net Assets totaling US \$4.2 million were brought into the books of accounts of the Government as at 30th September 2012 and all its financial operations from thereon being accounted for directly as part of the Government's operations.

Contingent Liabilities and Commitments

Contingent liabilities at the end of the financial year comprise of actuarial valuation of the unfunded pension scheme for public officers as well as loans guaranteed by the Government on behalf of Statutory Bodies. Estimates of quantifiable contingent liabilities stood at US \$227.1 million as at the end of March

2013, with an amount of US \$219.4 million representing actuarial valuation of the Government's pension scheme.

Also, the Government entered into long term commitment on 11th January 2008 by signing a 25-year term contract with Interhealth Canada Clinical Services (TCI) Ltd. (Clinco) and Interhealth Canada Infrastructure (TCI) Ltd. (Infraco) for the provision of all health services on the Turks and Caicos Islands with two hospitals in Grand Turk and Providenciales.

Conclusion

The Government remains committed to prudent fiscal management, ensuring improvements in revenue collection and that necessary cost savings and expenditure control measures are in place to enhance its financial performance. Significant challenges are still envisaged and great efforts will be made in improving compliance in revenue collection while at the same time deriving value for money and maximum benefits from amounts spent on Government operations.

The Annual Consolidated Fund Account for the financial year ended 31st March 2013 should be read in conjunction with the underlying notes and supplementary disclosures for better understanding and interpretation.

NOTES TO THE PUBLIC ACCOUNTS

NOTES TO THE PUBLIC ACCOUNTS

The numbered notes that follow relate directly to the content of the financial statements above and are numbered accordingly.

NOTE 1 – GENERAL INFORMATION

The form and content of the Annual Statements of Public Accounts of the Government of the Turks and Caicos Islands are prescribed in Paragraph 1 of the Schedule 2 of the Public Financial Management (PFM) Ordinance 2012.

The Government Reporting Entities covered in these Financial Statements comprise ministries and departments of Government (excluding statutory bodies) controlled by Accounting Officers that are appointed by the Governor under Section 17 of the Public Financial Management (PFM) Ordinance 2012.

The Annual Statements of Public Accounts reflect the financial performance of the Government of the Turks and Caicos Islands for the financial year ended 31st March 2013 on the basis of moneys received by, held in or paid out of all public funds of the Government during the year under review. The Government through the Treasury Department operates a centralized treasury function that collects moneys and administers expenditure payments for all ministries and departments of Government.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Public Accounts.

(a) Basis of preparation

The basis of preparation of the Annual Statements of Public Accounts is largely governed by the provisions in the Public Financial Management (PFM) Ordinance 2012, complying with suitable generally accepted accounting principles.

The Annual Statements of Public Accounts of the Government of the Turks and Caicos Islands have been prepared under the historical cost convention and on the modified cash basis of accounting, taking into consideration the Government's legal and regulatory framework in relation to public finances.

The modified cash basis applied recognizes revenue when received through the Treasury Collections Accounts and not when earned, expenditure in the period it is incurred and purchases of fixed assets including immovable property, plant and equipment expensed fully in the year of purchase. To comply with the Public Financial Management (PFM) Ordinance 2012 concerning the recognition of and accounting for assets and liabilities, the recognizable values of the Government's outstanding debts are included, with only the debt service payments (such as interests) recognized in the Statement of Revenue and Expenditure. Thus, the surplus/ (deficits) established in the public accounts does not reflect loan principal receipts or debt repayments. On transition from pure cash basis of accounting to a modified cash basis of accounting, the values of outstanding debts as at 1st April 2007 were brought into the public accounts as prior year adjustments against the Consolidated Fund Balance. Where necessary, comparative data for the previous year have been restated to conform to the changes in presentation in the current year. The Annual Statements of Public Accounts are not fully compliant with the International Public Sector Accounting Standards (IPSASs) but they comply with those standards as much as possible. Major areas of departure are recognition of employee benefits, fixed assets, inventories and the consolidation of the financial statements of other entities controlled by Government, that is, the statutory bodies.

(b) Consolidation

The consolidation of the Annual Statements of Public Accounts relate to all public funds (including the Consolidated Fund) and for all ministries and departments of Government that are not considered as statutory bodies.

Section 44 and Paragraph 1 of the Schedule 2 of the Public Financial Management (PFM) Ordinance 2012 requires all public monies to be accounted for in the public accounts. All public funds of the Government are therefore covered in the Annual Statements of Public Accounts and these comprise the Consolidated Fund (as defined in Section 112 of the Turks and Caicos Islands Constitution Order 2011 and Section 7 of the Public Financial Management (PFM) Ordinance 2012) and other permitted Funds as spelt out below;

- (i) Development Fund – established under Schedule 8 of the Public Financial Management (PFM) Ordinance 2012 to account for capital (or development) projects financed through transfers from the Consolidated Fund, development aid grants and loan finance.
- (ii) Sinking Fund - established under Section 9 of the Public Financial Management (PFM) Ordinance 2012 to meet with loans and bonds repayment in the future.
- (iii) National Forfeiture Fund - established under the Proceeds of Crime Ordinance 2009.
- (iv) Contingency Fund – not in operation.

The Annual Statements of Public Accounts do not include the Financial Statements of the Statutory Bodies of the Government of the Turks and Caicos Islands. The Statutory Bodies prepare separate financial statements and lay these before the House of Assembly.

(c) Reporting Period

The reporting period for these Annual Statements of Public Accounts is 1st April 2012 to 31st March 2013.

The Budget forecast is the original forecast as amended by subsequent supplementary budgets for the year as appropriated by the House of Assembly.

(d) Functional and reporting currency

The functional and reporting currency is the United States Dollar (US \$), which is the legal tender of the Turks and Caicos Islands. Items included in the financial statements are measured in the currency of the primary economic environment in which the entity operates.

(e) Foreign currency transactions

Transactions in foreign currency other than the United States Dollar are recorded at the rates of exchange prevailing at the time of transactions. At 31st March 2013, monetary assets and liabilities that are denominated in other currencies are translated at the rates prevailing at that date. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from translation at year-end exchange rates of monetary assets and liabilities denominated in currencies other than the United States Dollar are recognized in the Statement of Financial Performance (Revenue and Expenditure).

**(f) Classification of Accounts**

The Public Accounts are classified in the same form as the National Budget and in accordance with the approved Chart of Accounts.

(g) Loans and Advances

Loans are recorded as liabilities to Government in the Statement of Financial Assets and Liabilities when loan draw down is made, with appropriate disclosure of undrawn balances. Advances made by Government are recorded as assets when made and on historical cost basis with write down for irrecoverable amounts.

Interest expense or income on borrowings is recognized in the Statement of Financial Performance only when paid or received.

(h) Property, Plant and Equipment

Purchases of property, plant and equipment are expensed fully in the year of purchase.

Unrealized gains or losses arising from changes in the values of property, plant and equipment are not recognized in the public accounts. Proceeds from disposal of property, plant and equipment are recognized as non-tax revenue in the period when it is received.

(i) Inventories

Consumable supplies are expensed in the period in which they are paid for.

(j) Employee benefits

Employee benefits include salaries, wages, allowances, pensions and other related-employment costs. Employee benefits are recognized when payments are made. No provision is made for accrued leave or reimbursable duty allowances.

TCIG operates a discretionary non-contributory pension scheme for staff employed before the 5th April 1992 under the Pensions Ordinance. The costs for this scheme are statutory charges against the revenues of the Turks and Caicos Islands, staff eligible under the scheme may be entitled to receive a pension based on salary and length of service of which a proportion can be converted to a lump sum gratuity payment, due to be phased out. Pensions are awarded at the discretion of the Governor. Eligibility to the scheme ceased following the introduction of the National Insurance Ordinance on the 5th April 1992 when all new employee pension entitlements were to be met from the NIB scheme, the Government and employee, both contribute to the scheme to ensure that an employee's entitlement is subscribed during the period of employment.

(k) Contingencies

Contingent liabilities are recorded in the Statement of Contingent Liabilities when the contingency becomes evident. Contingent assets are neither recognized nor disclosed.

(l) Commitments

Commitments include operating and capital commitments arising from non-cancellable contractual or statutory obligations. Statements of Outstanding Commitments relating to non-cancellable contractual or statutory obligation where goods have been delivered or services provided are not included in the Statement of Financial Assets and Liabilities (except otherwise stated), as details are not available.

NOTE 3 - RECURRENT REVENUE COLLECTION

The total amount of US \$ 180,292,851 (US \$ 164,605,264 - FY2011/12) represents revenues from various domestic sources (classified in the same form as the National Budget) collected for and on behalf of the Government during the period and paid mainly into the Consolidated Fund.

Further details are provided in STATEMENT NO. 5 - COMPARATIVE STATEMENT OF ESTIMATED AND ACTUAL REVENUE BY SUBHEADS FOR THE FINANCIAL YEAR ENDED 31ST MARCH 2013.

**Seaport Departure Tax from Grand Turk Cruise Terminal Ltd.**

A total amount of US \$ 1,320,778 (US \$ 1,202,437 – FY2011/12) is included in the Revenues collected for Seaport Departure Tax paid in by Grand Turk Cruise Terminal Ltd. Under a Development Agreement with Carnival Corporation signed on 01 Dec 2003, the Government is to receive a guaranteed annual income of at least US \$900,000 in Seaport Departure Tax for cruise passengers arriving in the Grand Turk Cruise Centre from 1st January 2007, which became operational in early 2006. The guaranteed annual amount of US \$900,000 was derived based on an annual cruise passenger numbers arriving in Grand Turk of 300,000 persons. However, in FY2005/6, the Government received from Grand Turk Cruise Terminal Ltd. the sum of US \$6,593,700 as payment under an agreement to forgo the annual guaranteed tax income for a guarantee period of ten years (2006 – 2015 calendar years). The amount of US \$6,593,700 represents the net present value (discounted at 5%) of the annual guaranteed tax income expected over the guaranty period agreed, taken as US \$900,000 for nine calendar years (2007 – 2015) plus US \$525,000 for the calendar year 2006. In that regard, the Seaport Departure Tax income received in the period is based on amounts received in excess of the guaranteed annual amount, where the number of cruise passengers arriving in Grand Turk exceeds the 300,000 mark established under the covenant agreement with Carnival Corporation.

Receipts – Sinking Fund and National Forfeiture Fund

Amounts of Interest receipts totaling US \$42,547 (Nil – FY2011/12) was received into the Sinking Fund and included in Interest, Rents and Dividends. Also, the National Forfeiture Fund received the sum of US \$2 million, which is included under Other Revenues.

NOTE 4 – CIVIL RECOVERY INCOME AND EXPENSES

The total amount of US \$ 28,180,528 (FY2011/12 - Included with normal revenues collected) represents amounts recovered as civil recovery receipts for which amounts spent on civil recovery during FY2012/13 totaled US \$7,331,087 (US \$ 5,832,933 – FY2011/12).

NOTE 5 - CAPITAL RECEIPTS: SALE OF LAND

The total amount of US \$11,161,356 (US \$3,261,056 - FY2011/12) represents amounts received during the period by the Government on sale of land within the Turks and Caicos Islands.

NOTE 6 – SALE OF PROVO WATER COMPANY

The amount of US \$7,500,000 was received for the sale of 46% shareholding of the Government in the Provo Water Company valued in the books of accounts at its nominal value of US \$46, representing a profit on sale of US \$7,499,954 captured as part of Other Revenue Receipts.

NOTE 7 - OTHER GRANTS AND AID RECEIVED

The total amount of US \$13,102,715 (US \$718,384 - FY2011/12) represents amounts received during the period as presented in the schedule below –

NOTE 22: LONG TERM COMMITMENTS

Health Services Contract

A Contract was signed on 11th January 2008 with Interhealth Canada Clinical Services (TCI) Ltd. (Clinco) and Interhealth Canada Infrastructure (TCI) Ltd. (Infraco) for the provision of all health services on the Turks and Caicos Islands with two hospitals in Grand Turk and Providenciales. The Contract was established to minimize the transportation of patients for treatment abroad under the Government's Treatment Abroad Programme (TAP), which was deemed as a very expensive option. It involves the provision of primary and secondary health care services through design, construction, financing, equipping, staffing, maintenance and operation of the Facilities for a period of 25 years. At the expiry of the Agreement at the end of the project term, the Facilities, the Ring-fenced Equipment and the Non-Ring-fenced Equipment shall revert to the Government and there will be no residual value payment to be made by the Government to either Relevant Provider. The capital cost of the Facilities is set at US \$65,500,000 and the capital cost of the Ring-fenced Equipment is set at US \$13,216,942.

Under the Contract, payment is to be made on monthly basis as determined by the payment mechanism established and based on the financial model (cash flows) of the service providers. The Government may under the contract elect to have payment of any amount due to be made by or through the National Health Insurance Body (NHIB) but shall remain liable (as primary obligator) for payment of all such amounts to the Relevant Provider. The monthly payment under the contract commenced in April 2008. The Government paid on monthly basis from FY2008/9 onward about US \$1.3 million to Infraco as unitary payment and about US \$2.2 million to Clinco for Clinical Equipment (US \$0.2 million) and Clinical Services (US \$2.0 million). NHIB contributed to the payment for Clinical Services.

STATEMENT NO. 11 - STATEMENT OF CONTINGENT LIABILITIES AS AT 31ST MARCH 2013

	DETAILS	AMOUNTS US\$
Public Officers Pension Scheme	An actuarial valuation was performed on the Public Officers Pension Scheme. The scheme is unfunded, in that the Government's pension contributions are not invested to create funds to pay pensioners. Based on a draft actuarial report, the pension liability, as at 30th September 2006, of the past and future service costs amounted to \$219,449,840. No final actuarial report has been issued to date. However based on the new pension ordinance which came into effect on 1/4/2012, this amount may be reduced. In addition a number of persons have left the service between 2006 and now that will have further altered the amount quoted.	219,449,840
Subsidies	The Government has in the past entered into long term contracts with service providers to subsidise the cost of utilities to some Islands. This represents a commitment for the remaining duration of the contract - the amount of which has yet to be quantified by Government for disclosure in this Statement.
